PETER NJUGUNA WANGUI

Technology Programme Manager | Full Stack Software Developer

Eldoret, Kenya | 0715 230 825 | peternjugunaw25@gmail.com
Portfolio: peternjugunalab.vercel.app | LinkedIn: linkedin.com/in/peter-njuguna-04990b240

PROFESSIONAL SUMMARY

Software developer and programme manager with more than five years building web applications and running technology education programmes across Kenya. Led TechLabs Mashinani through six counties, reaching 6,756 learners, training 277 teachers and bringing 3,566 girls into STEM. Builds production software on the MERN stack, has contributed to systems supporting 10,000 plus concurrent users, and has trained over 300 developers. Moves comfortably between a codebase, a classroom and a partnership meeting.

CORE SKILLS

Software Development. JavaScript, TypeScript, Python, React, Next.js, Node.js, Express.js, REST APIs, MongoDB, MySQL, PostgreSQL, Firebase, Git and GitHub, Linux, WordPress, System Design, Application Deployment, Agile and SDLC

AI and Data. Pandas, NumPy, Scikit learn, TensorFlow, PyTorch, Machine Learning, Generative AI, Large Language Models

Programme Delivery. Programme Planning and Implementation, Monitoring and Reporting, Stakeholder Management, Partnership Development, Curriculum Design, EdTech Integration, Community Mobilisation, Event Management, Training and Mentorship

PROFESSIONAL EXPERIENCE

EldoHub Tech & AI Academy, Eldoret, Kenya

Event, Community and Relations Coordinator

2026 to Present

- Coordinate technology events, workshops, buildathons and industry sessions that put learners and developers in the same room as employers and partners.
- Run delivery end to end, from planning and participant mobilisation through communications, logistics and execution.
- Grow the partner base of institutions, companies and community stakeholders that feeds directly into training, hiring and innovation programmes.

Programme Manager, TechLabs Mashinani

May 2025 to May 2026

- Led a six county EdTech and digital skills programme from planning through delivery and reporting, reaching **6,756 learners** across Elgeyo Marakwet, Trans Nzoia, Uasin Gishu, Baringo and Kakamega.
- Trained **277 teachers** to integrate digital tools into everyday classroom teaching, creating a ripple effect far beyond the direct programme sites.
- Designed and delivered STEM outreach that engaged **3,566 girls**, targeting the gender gap in technology access.
- Built delivery partnerships with schools, county governments, development organisations and technology partners, and adapted curricula to each community rather than deploying one fixed syllabus.
- Managed field teams, training logistics, schedules, resources and programme reporting across all sites.

Full Stack Development Instructor

February 2024 to Present

- Teach the MERN stack, MongoDB, Express.js, React and Node.js, taking learners from idea and system design through build, testing, deployment and final presentation.
- Trained **150 plus learners** in full stack development at a **95 percent completion rate**, and **300 plus learners** overall across bootcamps and short programmes.
- Coach learners on Git and GitHub, collaborative workflows and the development practices teams actually use in industry.
- Mentor learners through real projects until each has something deployed and defensible to show an employer.

Freelance and Contract Engagements

WordPress and CMS Developer

January 2022 to Present

- Design and build custom WordPress and CMS websites for SMEs, then train owners to run and update them independently.
- Provide ongoing maintenance, content support and digital transformation guidance.

Digital Literacy Mentor, EFAC and Mentors Without Borders

January 2022 to April 2024

- Mentored emerging programmers in programming fundamentals, problem solving, career direction and professional growth through structured contract engagements.
- Built and deployed web applications alongside the mentorship work, contributing to systems designed for **10,000 plus concurrent users** and helping cut deployment timelines by up to **30 percent**.

EcoHost, Kenya

Web Hosting and IT Infrastructure Officer

May 2020 to November 2022

- Onboarded and supported **20 plus hosting clients** and strengthened the digital operations of **7 plus businesses**.
- Built, deployed and hosted websites, and provided hosting, infrastructure and deployment support.

ECOSYSTEM GROWTH AND PARTNERSHIPS

Build and sustain the partner network behind EldoHub hackathons, buildathons and industry sessions, bringing companies into the room as sponsors, judges, technical mentors and hiring partners.

- Directed the **TujengeMtaa Hackathon** with **150 plus participants**, delivered with **Safaricom PLC** and **Konza Technopolis**, and ran ideation, judging, logistics and follow on mentorship that carried winning ideas past demo day.
- Delivered hackathons and applied technical sessions with **PayHero**, **RentHero** and **Curso AI**, giving learners live exposure to payment integration, property technology and production AI tooling.
- Hold working partnerships with **ICTA Kenya**, the **Office of the Data Protection Commissioner**, **KENIC**, the **UK Kenya Tech Hub**, **SOS Kinderdorf**, **AfriLabs** and the county governments of Uasin Gishu, Elgeyo Marakwet and Nandi.

MENTORSHIP AND RECOGNITION

Education for All Children (EFAC)

Professional Mentor, 2024 to Present | Peer Mentor, 2017 to 2023

- Mentor scholars and young professionals on goal setting, career planning, confidence and personal growth.
- Awarded the **Honorary Award for Most Community Impact** at the 2025 Wezesha EFAC Graduation.

EDUCATION

Bachelor of Science in Computer Science, Second Class Honours (Upper Division)

University of Eldoret, Kenya | 2021 to 2025
